

## ADDING AND CUSTOMIZING WIDGETS EVENTS AND TRAVEL SECTION

- 1: Add as many widgets of any type as you may need
- 2: When multiple widgets of the same type are stacked together (follow each other)- and they all have the same section header, they retain one header--the first one
- 3: You can add different widget types (Photo Grid + Accommodations + Notes) and customize the Section header to be identical. This will now retain the header of the first section title only  
Note: make sure they are stacked
- 4: To edit the header or copy paste the header title click the Gear icon on the top right of the widget

OUR FAVES

CRAFFETTI

This eclectic but amazing hole in the wall is quintessential New York. It's tiny but the cramped quarters are worth it for the delicious Indian-via-the-Mediterranean fare.

CARL P. SCH
